This is not your MPEG-2 license key!

Your license key will be generated within 72 hours and sent to the email address that you supplied. When you receive your key, you will need to add a line to your config.txt file. For example, if we send you the key 0x12345678, you would add the following line to config.txt:

```
decode_MPG2=0x12345678
```

Please make sure that you are running the most recent version of the Raspberry Pi firmware; only versions dated after 8 August 2012 support this feature.
